Daniels. Responsibilities included analyzing wood quality data through various statistical models and software, presenting results to managers and sponsors, and supporting the related research of the department's graduate students.</p>

**Research Coordinator**, Warnell School of Forestry and Natural Resources,  
University of Georgia Wood Quality Consortium  
Athens, GA August 2007 - December 2009  
Provided statistical support for the Wood Quality Consortium, which is funded  
by leading members of the forest products industry in the Southeast United  
States. Responsibilities included analyzing wood quality data through various  
statistical models and software, presenting results to managers and sponsors,  
and supporting the related research of the department's graduate students.

**Instructor**, College of Public Health, University of Georgia Department of  
Epidemiology and Biostatistics  
Athens, GA August 2008 - December 2008  
Taught Biostatistics for Public Health, an introductory biostatistics course for  
undergraduates. Course material was geared toward students studying in the  
public health disciplines. Responsible for all aspects of course curriculum and  
management.
